

1PTU BOE GJYJOH

Securifor can be installed with three different post types:

Rectangular post system

80 x 60 x 2,5 mm or 120 x 60 x 3,0 mm (depending on the post length). The posts have a single row of M8 threaded inserts. The panels are fixed using specific fixators or full length cover plates and one-way bolts.

The top of the panels must be reinforced with a U-profile, available in steel (to be fixed with bolts) or in aluminium (clippable - see pictures above).

1BOFMT

The panels are made of heavy, high security welded mesh of 2518,6 mm width. Several panels can be installed one above the other. Panels in one piece up to 6 m high are also available.

For maximum security the mesh is: 12,7 x 76,2 mm (H x W), with a 4 mm wire diameter.

Weld strength: 50% of the minimum tensile strength of the wire.

In tests, performed by specialised police departments, the mesh had a delay factor 40x greater than other standard fence products - a vital requirement to capture potential escapees.

Fully tested to comply with the security standards in Europe.

(BUFT

The Securifor system is supplied with matching gates using the same high security mesh infill as the fence. Single or double swing or sliding gates.

\$PBUJOH UFDIOJRVF

Panels made out of galvanised wires. An adhesion coating is given for perfect bonding with the polyester coating (min. 100 micron).

The panels are also available coated in Zinalu Super (95% zinc, 5% aluminium) or galvanised and polyester coated for long life protection.

\$P M \$V S T

Green RAL 6005. Other RAL colors & Zinalu Super finishing are available on request.

Extra Security

Securifor Double Skin - panels

- guarantee a higher security and a maximum delay factor.
- two Securifor panels welded towards each other in an angle of 90°

ASSORTIMENT SECURIFOR

Height fence mm	Dimensions of the panels L x H - mm
2000	2518,6 x 2010,6
2400	2518,6 x 2417,0
3000	2518,6 x 3001,2
4000	2518,6 x 4004,5
6000	2518,6 x 6011,1
