

**NEW**

**MINI**   
**BISON**

Introducing the Mini Bison to the SSD range. The Mini Bison is the ideal, cost effective solution for projects that require a higher visibility barrier than a standard 600mm Pyramid.

The Mini Bison outweighs his opposition offering a filled weight of 70KG and an impressive 60 degree rotation.

Also to this, we also offer an anti climb, galvanised and powder coated panel to increase the barrier to an overall height of 2m, making it the first of its time on the market

-  **1m Long**
-  **800mm High**
-  **300mm Wide**
-  **70kg when Full**
-  **2m Anti Climb Fence option**

**RIDGEWAY**
