RIDGEWAY

Safetop Fencing Panels

Panel Features

Triangular beams at the top and bottom of the panel provide additional rigidity.

"Spike-free" panel design

3.0m wide panels, reducing installation & post costs by up to 20% when compared to 2.50m wide panels

Range of heights available from 900mm to 1800mm

Produced from Ø5.00mm Galvanised core wire to BS EN 10244-2:2009 class D
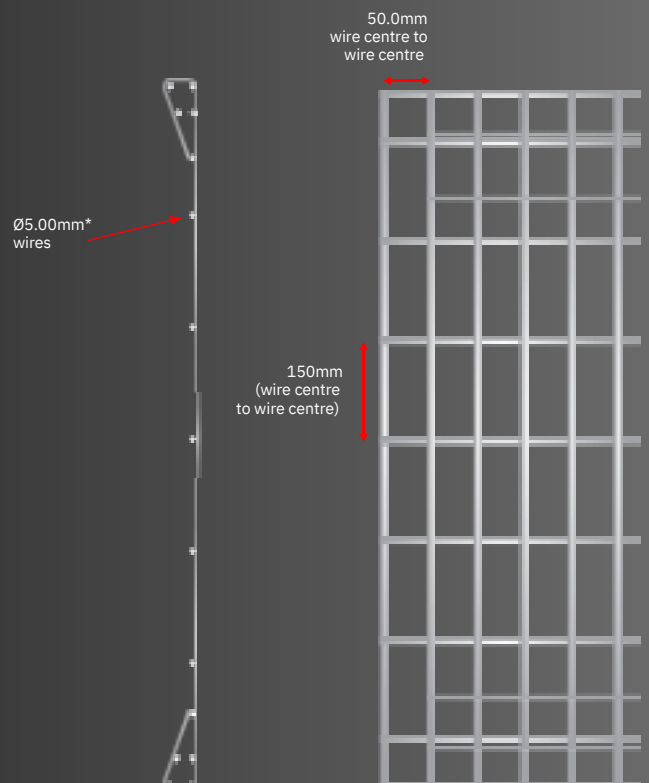

"Cut-outs" on profiled section allow easy installation onto square box-section posts

*Nominal diameter after Polyester Powder Coating

Applications

- Schools & Nurseries
- Play areas
- Commercial & Industrial Sites
- Residential areas
- Sports facilities
- Retail areas
- Pedestrian & Passenger demarcation

50.0mm wire centre to wire centre

Ø5.00mm* wires

150mm (wire centre to wire centre)

Safetop® Fencing Panels

Panel Dimensions (h x w)	Pallet Quantities	5.00mm* vertical wires & 5.00mm* horizontal wires
		Approx Panel Weight (kg)
900mm x 3005mm	30	15.00
1200mm x 3005mm	30	17.90
1500mm x 3005mm	30	20.90
1800mm x 3005mm	30	24.00

Panel Finishes Available

In addition to the standard Galvanised wire finish (typically 80-100g/m2 of Zinc prior to Welding / fabrication) all panels can be offered with triple coat anti-corrosion architectural finish consisting of Galvanised wire+ Zinc Phosphate pre-treatment+ 100 micron Polyester coating, to give long lasting protection against the elements.

A wide range of additional colours are available, please contact the Sales Office for further details.

RAL 6005 Moss Green   RAL 9005 Jet Black   RAL 7016 Anthracite Grey   RAL 9010 Pure White

Handling & Storage

The Safetop wire mesh panels should be stored in a dry, well-ventilated area away from any sources of moisture or humidity. They should be stored flat and supported on a level surface to prevent bending, warping, or deformation.
